RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

The Saratoga County Chamber of Commerce is a proud supporter of local businesses and economic growth. We have the pleasure of working with entrepreneurs of all interests and capacities, and we rely on their input to develop a strong and sustainable vision for a successful future. We are delighted to announce our support for the merger of Charter Communications, Time Warner Cable and Bright House Networks into New Charter, and believe our members will appreciate the company's consumer-led approach.

New Charter would introduce its customers to a variety of products, each of which offer the highest quality available on the market. We are confident our members would benefit from New Charter's fast speeds and commitment to network neutrality, and we look forward to working the company in the future.

New Charter would offer the fastest entry-level speed on the market at 60 Mbps. Already in place under Charter, customers have reported great satisfaction with the impressive basement package. New Charter's many offerings would be boosted by flat rate plans. This means no usage-based billing, allowing customers to fully understand and utilize their service. In addition, New Charter would not issue data caps in an effort to keep the Internet free and open to all. We are highly encouraged by this commitment, and know our members would gain from having unhindered online access.

New Charter has outlined an impressive array of products and services that would ensure great customer care. Thank you for considering the merger, and please join us in support.

Sincerely,

Todd L. Shimkus, CCE
President
Saratoga County Chamber of Commerce
